Why NumWorks?

NumWorks transforms learning with a modern and seamless calculator experience.

Teach Math, Not Technology

Too often, valuable class time is lost because teachers are stuck with outdated technology or insufficient tools. NumWorks changes that.

Loved by teachers and students alike, NumWorks simplifies classroom technology with an easy-to-use, all-in-one ecosystem. From test prep to exploring advanced math, it's your trusted learning partner.

Dave H. Deputy Superintendent NY

The ability for students to use multiple devices has provided great flexibility. I am also extremely impressed with how NumWorks responds to feedback and incorporates it into its updates. I also appreciate how frequently the updates come out.

Kyle H. Math Teacher IL

Making the school-wide switch to NumWorks calculators has been one of the best decisions we have made. The customer service is second-to-none and I know the engineers are always working to improve the software and add functionality. We are thrilled with our NumWorks calculators.

The NumWorks Ecosystem

All tools are designed to enhance teaching and learning.

The NumWorks Graphing Calculator

Handheld · User-friendly · Frequent Updates

Designed by teachers, this distraction-free handheld calculator features an intuitive, app-based interface for easy learning. It's built to withstand years of academic use, and frequent updates bring new features.
