

Company Overview

GLOBAL METROLOGY PARTNER

- Mitutoyo provides precision measurement tools, systems and support for manufacturing and quality teams.
- Core focus: accuracy, repeatability, inspection confidence and long-term measurement reliability.
- Local support includes product selection, demonstrations, training, repair coordination and distributor partnership.

Products & Capabilities

TOOLS · SYSTEMS · DATA

- Calipers, micrometers, indicators, bore gages, height gages, gage blocks and precision hand tools.
- Profile projectors, laser scan micrometers, hardness testing and comparator solutions.
- Digital output, Bluetooth/U-WAVE and MeasurLink options to support electronic data capture.

Naval Sustainment Fit

SUPPORTING QUALITY IN CRITICAL WORK

- Inspection support for machining, repair, maintenance, overhaul and supplier quality applications.
- Solutions that help reduce manual data entry, improve traceability and increase confidence in inspection results.
- Tools and training that support consistent measurement practices across teams and work centers.

Puget Event Engagement

DISCUSS · DEMO · CONNECT

- Meet with Mitutoyo to review current measurement challenges and upcoming project needs.
- Explore opportunities for tool standardization, data collection and process improvement.
- Connect with local representatives and authorized distribution for quotes, demos and follow-up support.
