

Consilium Marine US Visual Detection

PROBLEM STATEMENT

Shipyards are having to spend a lot of resources on ensuring safe working environment, fire detection and PPE compliance

BENEFITS

Increased safety with lowered manpower need

- Reduced fire-watch manpower
- Automated PPE compliance monitoring
- Faster incident detection and response

TECHNOLOGY SOLUTION

Proven 3IR flame detection with large area coverage (525ft X 245ft)

AI driven smart camera solutions working with existing camera infrastructure Checking compliance with PPE requirements, Fall detection, People counting for area clearance, Smoke & Flame detection

GRAPHIC
