NO OTHER MAGNET EVEN COMES CLOSE!

May 2026

Introducing A Line Of Products Based On A Patented Technology That Creates The Lightest, Safest, Most Powerful Switchable Magnets Ever Invented!

- The First Multi-Pole Magnet Creating The Highest Power-To-Weight Ever Seen!
- Incredibly Compact Magnetic Field To Be More Effective On Even Very Thin Metals
- Finally A Magnet You Can Weld Near Without Affecting Your Arc
- Easy On Off Activation Without Risk Of Injury Or RSI's
- Hardened Steel Base For Long Life
- TiN Coating For Less Maintenance And Better Holding Force In Shear (most models)

MX-750
MagnaJig®

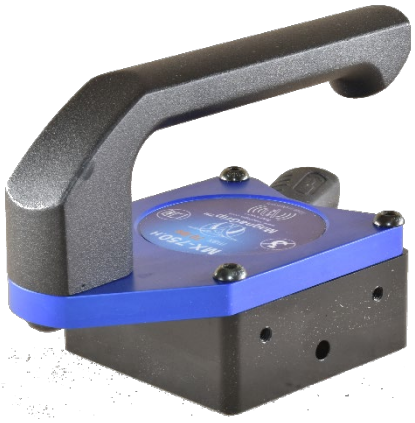

- Up To 750 lbs. Of Holding Force
- Low Profile Design
- Pre-Tapped Hole For Easy Integration
- Hundreds Of Uses Around The Shop
- Safety Shield Option To Protect Lever On All MX-750 Models

MX-750.R
MagnaJig® for Pipe / Flat

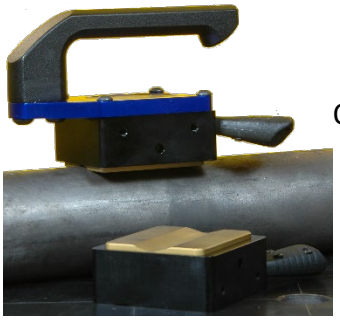

- Up To 750 lbs. Of Holding Force
- V-Groove Base For Use On Pipe And Flat Steel

MX-750.H
MagnaGrip® HandLifter

- One Of The Greatest Safety Devices You Can Buy
- No More Cut And Smashed Fingers
- Incredible 10:1 Safety Factor
- Easy On/Off-Safe And Ergonomic
- A Must If You Have A Burn Table!
- Rated For Hand Lifting Up To 66 lbs.

MX-750.H.R
MagnaGrip® HandLifter Pipe / Flat

One Of The Greatest Safety Devices You Can Buy

- V-Groove Bottom For Handling Pipe And Flat Steel
- Rated For Hand Lifting Up To 66 lbs.

MX-750.TG
Toggle Clamp

- Easy Clamping In Any Location
- Auto Adjusts For Thickness
- Like Having A Second Employee Helping You
- Eliminates Tacks And Scars

MX-750.SC
Screw-Clamp

- Easy Clamping In Any Location
- No Need For An Edge To Clamp At
- Like Having A Second Employee Helping You
- Eliminates Tacks And Scars

MX-750.A
MagnaAlign® Adjustable

- Like Having A Second Employee Helping!
- Holds Any Angle From 0-90 Degrees
- Securely Holds Even Heavy Loads
- Detents For Common Angles
- Easy Adjustability With Ratcheting Handles
- Hold material at a comfortable angle while grinding

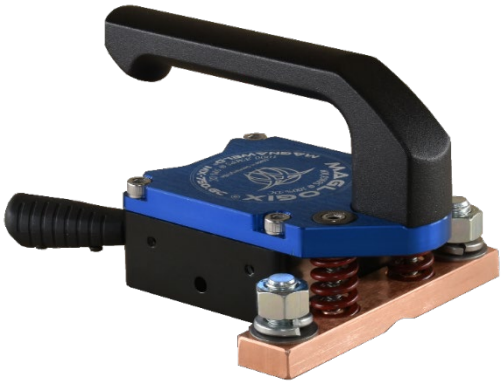

Variable Angle Rotation Assist Device and Fixed Base Options

- Rotate The Steel 360 Degrees While Securely Held
- Fixed Base Allows For Mounting To 28mm Fab Tables Or Use Screws/Bolts For Secure Hold

MX-750.GC

MagnaWeld® Welding Ground Clamp

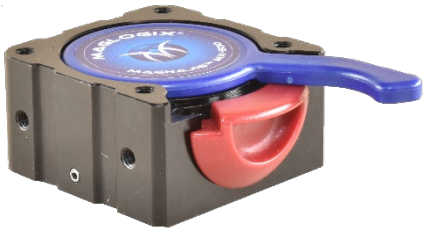

- Direct Connection To The Steel Through An All-Copper Connection
- 600 Amps @ 100% DC- 1000 @ 50%
- No More Tacking On Ground Tabs
- Easily Localize The Ground
- HandLifter, Alignment Tool And Ground Clamp All In One!
- Securely Holds Heavy Ground Cables Vertically And Overhead

MX-500

MagnaJig®

- Up To 500 lbs. Of Holding Force On ¼" Steel And Thicker
- Low Profile Design
- Pre-Tapped Hole For Easy Integration
- Hundreds Of Uses Around The Shop
- Stainless Steel Lever Available

MX-150

MagnaJig®

- Up To 150 lbs. Of Holding Power On 1/8" Steel And Thicker
- Easily Converts To Right Or Left Locking
- Tapped Holes On Top And Three Sides For Easy Attachment And Integration
- Stainless Steel Lever Available

MX-750.MG

MagnaGuide

- 48" Standoff To Keep Body Parts Out Of The Drop Zone
- Safe Control Of Lifted Steel Parts
- Up To 750 lbs. Of Holding Power On 1/4" Steel And Thicker
- Not For Use As A Lifting Magnet

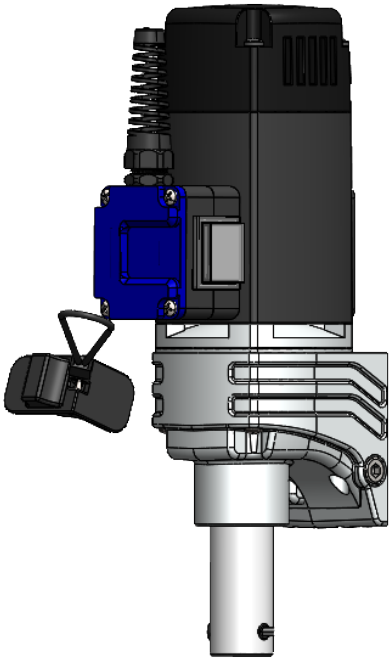

MX-1500
MagnaJig®

- Up To 1500 lbs. Of Holding Force On 3/8” Thick Steel!
- Low Profile Design
- Pre-Tapped Hole For Easy Integration
- Hundreds Of Uses Around The Shop
- Weighs Less Than 6 lbs!

MX-1500.R
MagnaJig® Pipe / Flat

- Up To 1500 lbs. Of Holding Force
- Low Profile Design
- Pre-Tapped Hole For Easy Integration
- Hundreds Of Uses Around The Shop

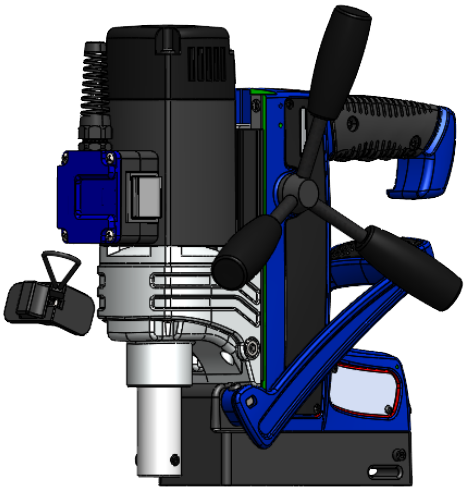

MagnaDrill® MX-V.AC.MK

- Upgrade Kit For Your MX-V Drill Stand
- 1-1/2 X 2” Rated Eibenstock® Motor
- “Hold-On” Power Switch For Greater Safety
- “Lock-On” Safety Tab For Longer Drilling Operations While Maintaining Safety
- Rapid Change Over From The Tool Holder
- 1100 Watts Of Drilling Power

MagnaDrill® MX-V.AC
Universal MagnaDrill®

- 1-1/2” X 2” Rated Magnetic Drill Press
- Tool Holder For Use With Many Corded And Cordless Hand Drills
- Lightweight And Extremely Portable
- Works On Very Thin Steel
- “Hold-On” Safety Switch
- “Lock-On” Safety Tab For Longer Drilling

MagnaDrill® MX-V Drill Stand

- ***Safety For Wrists And Hands*** when the drill bit binds up
- ***Overhead And Horizontal Drilling*** are now easy and effortless
- ***Securely Holds On To Even Thin Steel*** down to .080" thick
- ***Exceptional Holding Power*** on limited contact, painted and rusty steel
- ***Drilling On A Ladder*** is now safe and easy
- ***Accurate 90° Holes*** are now fast and easy to set up and drill
- ***Easily Tap Holes*** at 90 degrees
- ***Lightweight*** and extremely portable
- ***More Accurate*** round holes
- ***Faster Drilling*** with a 10X advantage without using your shoulder / body
- ***Longer Drill Bit Life*** due to less spinning of the drill bit
- ***Easy Through Holes*** for accurate bolt-through!
- ***Easily Counterbore***, Chamfer, Countersink, Ream and more!
- Designed to hold the newest DeWalt® cordless drills (DCD725,995,996,997,998), most Fein, Metabo® and Festool® drills. Also holds most ½" corded drills.
- ***Extended Guideway*** available for use with drill bits up to 15" long
- ***Universal Adapter*** to allow for almost any drill to be used. ½" shaft with Keyless or Keyed Chuck or Genuine ROHM chuck for higher precision
- **Eibenstock® Motor Kit** available for use with annular cutters and heavy duty use.

Maglogix® Magnahoist® Magnets Are Designed For All Aspects Of Steel Fabrication, And For Lifting!

MagnaHoist® MXL-2200 Lbs.
Up To 7000 lbs. Breakaway On ½”
Up To 2200 lbs. SWL On 3/8”
39.4 lbs. Gross Weight

MagnaHoist® MXL-1000 Lbs.
Up To 3300 lbs. Breakaway
Up To 1000 lbs. SWL
18 lbs. Gross Weight
Full Power On 3/8”
Pipe Version MXL-1000.R

MagnaHoist® MXL-500 lbs.
Up To 1650 lbs. Breakaway
Up To 500 lbs. SWL
8 lbs. Gross Weight
Full Power On 5/16”
Pipe Version MXL-400.R

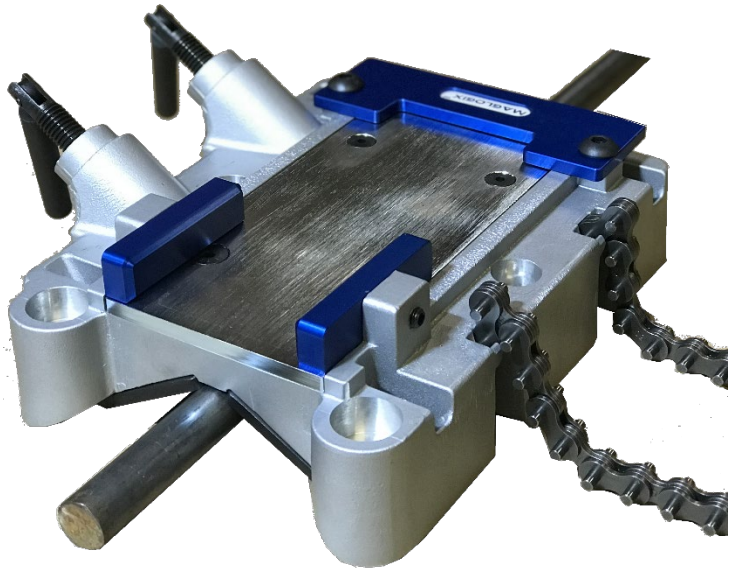

MagnaHoist® MXL-440 Lbs.
Up To 1500 Lbs. Breakaway
Up To 440 Lbs SWL
Under 8 Lbs. Gross Weight
Full Power On 3/8”
Pipe Version MXL-440.R
Strap And Adapter Available

MagnaHoist® MXL-220 Lbs.
Up To 750 Lbs. Breakaway
Up To 220 Lbs SWL
4 Lbs. Gross Weight
Full Power On ¼”
Pipe Version MXL-220.R

The New Maglogix® MXD-P Pipe Adapter Makes Drilling Pipe And Tube Stock Easy And Safe

- Any Material;
  - Stainless, Plastic, ABS, Aluminum, Steel Etc…
- Any Wall Thickness
- Solid Or Tube Stock
- Diameters From 1-8” (Or Larger With Adapters And Straps)
- Precise 90 Degree Drilling
- Drill As Safely As If You Were On Flat Plate
- Easily And Precisely Centered
- Rapid Setup And Tear Down
- No Tack Welding Flat Plate Or Channel Ever Again To Support Your Drill
- Designed To Fit And Work With The Maglogix® Permanent Magnet MagnaDrills®

Invented in the USA

MAGLOGIX®

NO OTHER MAGNET EVEN COMES CLOSE!

Introducing The Most Important Innovation In Magnetic Technology And Safety Since The Multi-Pole Magnet.

MagnaGrip® SS Sensing System

- Able To Detect And Display The Actual Holding Power Of The MX-1500 Magnet
- Alerts The Operator / Inspector To Unsafe Conditions Or Locations
- Invaluable For Detecting Safe Holding Locations And For Employee Training
- Prevents Dropped Loads And Equipment
- Automatically Accounts For Rust, Paint, Coatings And Steel Thickness
- Automatically Reads All Alloys And Surface Flatness
- Easily Operated, Charged And Field Calibrated With Included Reference Plates
- Available With MX-1500 Or MX-1500.R Base Magnets
- Designed And Manufactured In Parker, Colorado
