S&Ti

SHAW & TOWNSEND INNOVATIONS

SERVICE-DISABLED VETERAN-OWNED DEFENSE TECHNOLOGY RESEARCH & DEVELOPMENT STARTUP

REAL EXPERIENCE.
APPLIED SCIENCE.
MISSION READINESS.

NOT JUST A CONTRACTOR.
WE INVENT SOLUTIONS.

S&Ti is an early-stage R&D company focused on solving real-world maintenance and sustainment challenges. Unlike traditional contractors that primarily sell labor, we develop technologies and intellectual property that solve problems. By combining advanced materials science with decades of Naval aviation maintenance and engineering experience, we create practical solutions that reduce corrosion, extend equipment life, lower maintenance costs, and improve operational readiness.

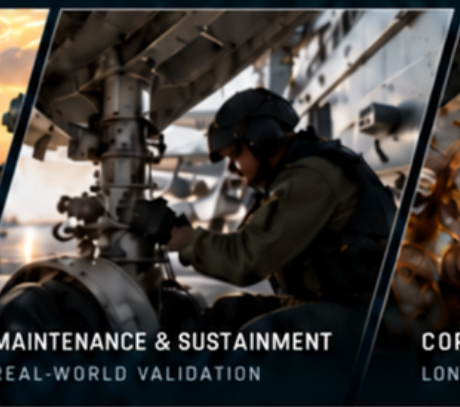

> *"We don't just provide people to solve problems. We invent solutions to the problems those people face."*

WHAT MAKES US DIFFERENT

- WE DEVELOP TECHNOLOGY, NOT JUST LABOR.
- WE COMBINE SCIENCE WITH REAL-WORLD OPERATIONAL EXPERIENCE.
- WE VALIDATE INNOVATIONS IN PRACTICAL SUSTAINMENT ENVIRONMENTS.
- WE BUILD SOLUTIONS FOR DEFENSE, MARITIME, AND COMMERCIAL USE.

NAVAL AVIATION
KEEPING MISSIONS MOVING

MAINTENANCE & SUSTAINMENT
REAL-WORLD VALIDATION

CORROSION CONTROL
LONGER LIFE. LOWER COSTS.

ADVANCED MATERIALS
INNOVATION FOR A TOUGHER TOMORROW

REDUCING MAINTENANCE.
EXTENDING SERVICE LIFE.
IMPROVING READINESS.

IDEAS TODAY. READINESS TOMORROW.
